Links to Third-Party Websites

This website contains links to third-party websites. These links are provided as a convenience to you and are not an endorsement of the third party products or services. ITS has contracted with *Orion Financial Services* to provide ITS personnel, ITS approved Broker/Dealers, ITS approved Solicitors, and ITS Clients with information regarding client transactions, client performance, and client account positions. All users need to familiarize themselves with the Orion update times and procedures to assure themselves that the information they are reviewing is current. For example, at month end, it may take several days into the following month for all dividends to be posted to the client accounts. This may have the effect of reducing client performance until all dividends and other distributions are posted to the client accounts.

Users must also be aware that Orion, and ITS as subscriber to Orion data management services, rely on downloads of client account data originating from the investment custodians of client accounts; thus, account performance viewed by logging on to Orion via ITS's AccountLink is directly based on the integrity of the account data as maintained by the investment custodian, the accuracy of which cannot be guaranteed by Orion or ITS. For example, the incorrect coding of a transaction by the investment custodian (i.e. coding an advisory fee deduction as a withdrawal), could produce overstated performance.
